

Offices*Single to multi story office building***At fixtures**

RTMXB-vvv

Relay for installation inside the fixture

RTMXB-N4-vvv

Relay for installation outside the fixtureRelay for installation outside the fixture**Controls****local control**

CAB-EO-XBP-vvv

EnOcean to XB RF mesh bi-directional interface

EnOcean products

Centralised control**Basic Standalone system**

CAB-CLK-MIO-XB-vvv-N4

Astronomical clock with multi-input/output interface in 8x8x6 cabinet
2 inputs used by the clock - 4 inputs available for options
use powerline communication on the electrical circuit

CAB-MIO-XB-vvv-N4

6 inputs available to receive signal from BMS dry contacts
use powerline communication on the electrical circuit**Most versatile systems**

CAB-Gateway

Server and modem cabinet
Additional features available:Monitoring
Unlimited scheduling
Online multi user / multi-location control

SW-BAC

BACnet software interface

3rd party products

Occupancy / motion sensor

Low voltage switch

Photocell

Lux sensor
