

**DIMONOFF**

## Daniel NOISEUX General Manager, Executive Vice President, Associate

Daniel Noiseux is the Chief Executive Officer and a shareholder of Dimonoff, as well as its Amotus division. With a background in mechanical and industrial engineering and an MBA in business management, he brings diverse expertise at the intersection of engineering, technology, and strategic development. He leads Dimonoff's

operations and growth vision with a strong focus on innovation, performance, and value creation.

A technology, automation, and digital transformation enthusiast, Daniel leverages his deep understanding of connected systems, IoT, and operational optimization to help organizations evolve their infrastructures and processes. His leadership is defined by a pragmatic, results-driven approach and a commitment to delivering reliable, durable solutions tailored to real-world industrial environments.

Outside of work, Daniel has a particular interest in outdoor sports, especially alpine skiing and sailing, which fuel his analytical mindset and passion for challenges.
