## Karine PICHÉ, Director of Finance

Karine Piché is a seasoned finance and operations leader with more than 25 years of experience in multinational corporations and technology companies. She brings deep expertise in financial structuring, ERP implementation, and continuous improvement, skills she leverages to drive organisational performance and sustainable

growth.

Before transitioning into the technology sector, Karine spent a decade at a leading U.S.-based medical technology company. There, she developed strong competencies in financial control, regulatory compliance, and process optimization. She later supported several innovative SMEs in deploying management systems, building performance indicators, and transforming their operational workflows.

Known for her engaging leadership and results-driven approach, Karine stands out for her ability to blend financial rigor, strategic vision, and operational efficiency. She plays an active role in building organizations that are more structured, more efficient, and well-equipped to support long-term growth.
