## Christian SIMARD, Vice President Technology & Innovation

Christian is passionate about developing expertise and fostering a culture of innovation. With more than 25 years of experience in the electrical and electronic manufacturing industry, he has led the creation of large-scale technological solutions and guided the evolution of high-value products by combining strategic vision, strong execution, and deep technical knowledge.

Throughout his career, he has built and grown world-class teams while expanding his scope into cloud-native platforms, cybersecurity, IT operations, and both cloud and on-premise infrastructures.

Christian stands out for his people-centered leadership and an innovation approach firmly focused on impact and long-term sustainability.

CREATE A  
CONNECTED,  
INTELLIGENT,  
SUSTAINABLE, AND  
SECURE WORLD
